

ISP SUMMIT 2026

Customers, Consolidation and Competition: The Next Chapter for UK Connectivity

Wednesday 13th May 2026
The Minster Building, London

ISPAUK

About the ISP Summit

The ISP Summit is the largest conference hosted by ISPA annually. Each year, we gather over 200 senior leaders from sector for a full day conference, including a programme of C-Suite panels, keynotes, workshops, and networking.

The ISP Summit 2026, titled 'Customers, Consolidation and Competition: The Next Chapter for UK' will explore how the sector can effectively articulate its value to crucial audiences.

Discussions will centre on aligning commercial, technical, and policy messaging to support the next stage of market maturity, ensuring the case for connectivity is understood by customers, policymakers, and second-phase investors.

Steve Leighton, ISPA Chair

About ISPA

Founded in 1995, the Internet Service Providers' Association (ISPA) is the leading voice of the UK internet industry, representing over 160 providers of internet services covering the breadth of the UK market.

Our work helps shape future regulation on behalf of its members and provides opportunities for members to convey their interests to industry, government, regulators, parliamentarians and the media.

In addition, ISPA organises many events for our sector including the high-profile ISPA Awards, ISP Summit and the main UK internet policy conference.

Internet related issues now top the list of policy challenges facing policymakers in the UK and across the world. ISPA reflects the full spectrum of the UK ISP industry and the contributions that the sector makes to businesses and consumers across the UK”.

Steve Leighton, ISPA Chair

The ISPA Partnership Programme

ISPA works on an annual basis with a number of partners whose products and services deliver added value to UK ISPs and infrastructure builders on their most pressing challenges.

Through annual exposure to our members, ISPA's partnership programme provides comprehensive access and engagement with the UK internet's ecosystem, from fibre infrastructure builders to ISPs. ISPA Partners benefit from year-round brand exposure, direct market access, and tailored commercial campaigns.
